

BPS System Power Pack

Specifications

Dimensions	16.5 x 8.875 x 13.25 in (420 x 225 x 336 mm)
Power Input	90-250 VAC
Battery Life	>8hrs (12 VDC, 12 Ahr)

The BPS system power pack is designed to be a portable power supply for the scanner and controller. The BPS comes in a rugged vertical case and provides an integrated storage system for the power supply, charger, and cords. The BPS has a battery life of over 8 hours providing you with a cordless option for job sites with limited access to a power supply. It displays a battery level meter on the control panel and provides an audible low battery warning. The BPS is designed to be rugged and dependable, so you get scan maps that are precise and reliable.

System Features:

- > DC battery/AC adapter switch
- > Over-discharge protection
- > Audible low battery warning
- > Rugged Mil-style electrical connectors
- > Power protection fuse
- > Over 8 hours of battery life
- > Integrated storage for power supply, charger, and cords
